**Accelerating Digital
Transformation in Law**

Accredited CLPD Course

OVERVIEW

The DIFC Academy, in collaboration with Thomson Reuters, presents a course on *Accelerating Digital Transformation in Law*.

Join us for an insightful and practical session on accelerating digital transformation in the field of law. Hosted by Thomson Reuters, this in-person seminar will delve into the latest legal trends from Thomson Reuters' global reports and provide valuable guidance on leveraging technology to drive efficiency and effectiveness in legal processes. Law firms and legal departments in attendance will leave with the knowledge and tools to navigate the digital landscape successfully.

During the session, our experts will present key findings from various Thomson Reuters reports, offering valuable insights into the current global and local legal landscape. Attendees will gain a comprehensive understanding of the emerging trends and challenges faced by the industry, enabling them to proactively adapt their strategies.

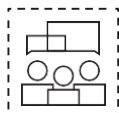

One of the highlights of this event is a practical session where the audience will be guided through the process of building a business case for legal technology from having an internal champion, to demonstrating ROI and what to expect from implementation and beyond. By exploring real-world examples and best practices, participants will learn how to effectively integrate technology into their workflows and achieve immediate benefits.

In addition, attendees will gain insights on how to be seen as strategic drivers of growth within your firm or legal department by leveraging technology to streamline workflows, automate repetitive tasks, and optimize resource allocation.

Register now and take the first step towards unlocking the full potential of digital transformation in the legal industry.
